

Test #2 - Important Information

November 7th, 2024

Instructions

Please read the following instructions carefully:

- **Test Date:** Thursday, November 7, 2024, during the regular class time.
- **Content Covered:** Materials from week 3 - 8 (excluding Aggregate Functions).

Test Breakdown

- **Total Questions:** 14
- **Question Types and Marks:**
 - 1 short answer question worth 13 marks
 - 5 short answer questions worth 3 marks each
 - 8 short answer questions worth 2 marks each
- **Total Marks:** 44

Guidelines

- Pay attention to the time limit and questions.
- **Question Requirements:** Short answer questions will ask you to create appropriate SQL queries to meet specified requirements.
- **Provided Tables:** Two tables are provided for use in specific questions, with table names mentioned in the questions.
- Use a text editor to build queries and test them on `sql.scweb.ca`.

Allowed Resources

- A text editor to create your queries.
- A browser to validate queries on `sql.scweb.ca` (login required).

Restrictions

- No outside assistance is allowed.
- Only use skills and knowledge learned in class.
- Answers that do not adhere to class practices will receive a mark of 0.
- Work must be completed independently; violations will result in a 0 grade and be addressed according to the Student Code of Rights and Responsibilities.
- **Time Limit:** 50 minutes.
