Test #1 - Important Information

September 26, 2024

Instructions

Please read the following instructions carefully:

- **Test Availability**: The test will be accessible in this folder starting at 2:10 pm on September 26, 2024.

- **Platform**: The test will be conducted on Blackboard using the Respondus LockDown browser.

- **Time Limit**: 45 minutes, ending at 3:00 pm.

Test Breakdown

- **Total Questions**: 22
- **Question Types and Marks**:
    - 20 multiple-choice, true/false questions worth 1 mark each
    - 2 short answer questions worth 10 marks each
- The short answer questions will require you to create well-formed and valid XML and JSON files.

Guidelines

- Use a text editor, browser, and JSON validator (e.g., JSONLint) to complete and validate your answers.

- **Remove formatting when pasting answers**.

Allowed Resources

- A text editor for creating files

- A browser to check XML format

- JSONLint.com to validate JSON files

Restrictions

- No outside assistance is allowed.

- Only use skills and knowledge learned in class.

- All work must be done independently; violations will result in a 0 grade and be addressed according to the Student Code of Rights and Responsibilities.
